

IGNSS 2016

6 - 8 December 2016
Colombo Theatres, UNSW Australia

IGNSS runs the SE Asian region's premier conference on Global Navigation Satellite Systems (GNSS) and related Position, Navigation and Timing (PNT) technologies. This year's IGNSS conference will be in Sydney, Australia from 6 to 8 December 2016 and will bring together leaders in GNSS and PNT to examine the latest technology, present cutting edge research and discuss in open forums the implications for policy, market development and positioning infrastructure deployment.

IGNSS 2016 will showcase a number of contemporary topics including, the role of PNT in automated land and aerial vehicles, the growing range of commercial precise positioning services, hard infrastructure issues such as space based augmentation systems, and soft infrastructure issues such as datum modernisation and mitigation of system vulnerabilities. These hot topics will be discussed in the context of the latest system developments fuelling the Multi-GNSS Era.

Closing date for Submission of Abstracts
Monday, 4 July 2016

Closing date for Submission of Papers requiring Peer Review
Monday, 26 September 2016

Topics will include the following and more:

- Emerging Application Areas for GNSS
- Key Industries and their Reliance on GNSS
- Aviation and Avionics
- Cooperative Intelligent Transport Systems
- Maritime Applications
- Unmanned Aerial Systems
- Alternatives to GNSS
- National Positioning Infrastructure
- Policies and Standards
- GNSS Augmentation including SBAS
- Datums and Geodesy
- National and International GNSS Developments
- Embracing the Multi-GNSS Era
- GNSS Receiver Development
- GNSS Vulnerability
- Machine Guidance in Agriculture, Construction and Mining

Sponsorship and Exhibitor opportunities will be available, please email ignss@unsw.edu.au for information.
